

This is a Costco Food Safety Alert

The JBS Swift Company and the USDA just announced a limited recall of fresh meat that was made into retail cuts and ground beef between April 28th, 2009 and May 28th, 2009. Our records indicate that you purchased fresh ground beef, steaks or ribs during that period. If you have any of this meat in your freezer, please return it to your local Costco for a full refund.

None of the meat you purchased after May 28th, 2009 is included in this recall.

Please contact JBS Swift at www.jbsswift.com or the USDA at 1.888.674.6854 for further information.

We will follow up with a letter.

And as a reminder – Cook all meat to the proper temperature.
